Vendor names displayed in **bold font** are new additions to the contract.

Vendor discount percentages displayed in **bold font** indicate a change in discount.

NOTE: Some discount changes were made due to new requirements from the manufacturers in the manner of which Anixter and other distributors are allowed to distribute their products. These requirements include a distributor's inability to sell products directly to an end-user. Certain manufacturers require that products can only be sold only to a contractor / integrator. Please contact Anixter for specific information.
